

Van & Smith Co. Inc

Christine Vicari, Principal

CAPABILITIES STATEMENT

For over 70 years, Van & Smith has supplied product and services to the industrial, institutional, commercial, military, and utility markets. Our mission is to provide consistent, dependable products and services to our clients. At Van & Smith, our clients are our number one priority. We understand the pressures supplying products and meeting deadlines. V&S exists to fill those needs.

Core Competencies

Van & Smith has been a leader in the engineering and supply chain for decades. We specialize in supply of:

- Electrical distribution equipment;
- Safety gear and arc rated materials;
- Pole Hardware, lightning, and overcurrent products;
- Medium voltage terminations, splices, and accessories;
- Engineering studies, testing and startup;
- Project management;
- Product training and certifications.

Differentiators

Established in 1946, Van & Smith is comprised of engineers with decades of experience in the medium voltage electrical industries including utility, commercial, institutional, and industrial. We are here to support your needs for product, services, and training in any capacity.
